Adding a Quality Control Lot for Use on the IDEXX **ProCyte Dx*** Hematology Analyzer (For Research Applications without an **IDEXX VetLab*** Station)

To add a quality control lot:

- 1. Ensure that you have downloaded and stored the most current QVM files on a virus-free flash drive.
- 2. Insert the flash drive into the IPU and then open it with Windows* Explorer.
- 3. Create a folder on the IPU desktop called **QVM** (if one does not already exist).
- 4. Copy the two files from the flash drive into the QVM folder and remove the flash drive from the IPU.
- 5. Double-click the **QC Files** icon on the Main menu.
- 6. Select a QC file that has no information in it.
- 7. Click the Input button.
- 8. Click Read File.
- 9. Click Browse, select the QVM folder on your desktop, and click OK.
- 10. Select one of the files and click OK.
- 11. Click **OK**.
- 12. Repeat steps 6–11 for the second QC file.
